

MAGNETIC PARTICLE INSPECTION REPORT

Work Order No.	Sky-NDT-Inspect-01	Inspection Date	29-Mar-24				
Customer/ Client	Sample Drilling Co.	Recommended Due Date	02-Dec-26				
Test Location	Dubai	Report No:	Sky-NDT-Inspect-01/7				
Inspected Material Particular		Inspection Equipment's Particular					
Item Description	Air / Hydraulic Winches Utility Winches / Tuggers	Equipment	Serial No.	Calibration Dt.	Cal. Due Dt.		
Item Serial No.	Power-MPI-008	Vernier Calliper	150740053	12-Jul-25	11-Jul-26		
Manufacturer	N/A	Lux Meter	L240630	30-Apr-25	29-Apr-26		
Service Type	Powe Type	Measuring Ruler	DMI-12	29-Apr-25	28-Apr-26		
Model No.	N/A	Sheave Verification Gauge	UT-15	29-Apr-25	28-Apr-26		
Rating/ SWL							
Material	Aluminium						
Inspection Type/ Category							
Surface Condition		Lifting Capacity		Sensitivity			
Surface Temperature in °C							
Inspection Method Particular		Inspection Consumables Particular					
Test Method	☐ Wet ☒ Dry	Consumables	Brand/Type				
Lighting Method	☐ Visible ☒ Fluorescent	Cleaner	CB-888				
Magnetism Type	☐ Residual ☒ Continuous	White Contrast	Whitw con				
Current Type	☐ AC ☐ DC	Magnetic Ink	BM				
Magnetic field direction	☐ Longitudinal ☐ Circular	Light Intensity	BI-985	Lighting Type			
Procedure No.	SWIM-Section. No.39 / ASME-B30.7	Acceptance Criteria	AC 08				
Inspected Item Picture							
							
Comments:							
Test Evaluation Particular							
Joint No	Welder ID	Weld length	Discontinuity	Start location	End location	Defect length	Evaluation
Area of testing				Restricted Access (if any)			
Inspection Remarks							
Inspection Result		☐ Satisfactory ☐ Not Satisfactory
